Geo Database

GEO_DB_Parcel.exe -- Use with ESRI ArcGIS Version 9.3 or higher software.

DataBase Name - Parcel.gdb

- mc_corporation_polygon – City/Village/Township coverage
- mc_easement_arc – Easements
- mc_landhook_arc – Parcel landhooks
- mc_parcel_polygon – Parcel polygon
- mc_water_arc - Hydrology
- mc_gpspts_point – Engineer GPS points
- mc_oldlotline_arc – Old lot lines
- mc_replat_polygon – Replat polygon
- mc_section_town_polygon – Section/Town/ Range polygon
- mc_soil_polygon – Soil Polygon
- mc_street_arc – Street center line

GEO_DB_Building.exe -- Use with ESRI ArcGIS Version 9.3 or higher software.

DataBase Name - Bldg.gdb

- mc_bldg_polygon – Building outline

GEO_DB_Annotation.exe -- Use with ESRI ArcGIS Version 9.3 or higher software.

DataBase Name - anno.gdb

- mc_anno_acres – Parcel acres annotation
- mc_anno_city – City names annotation
- mc_anno_easement – Parcel easements annotation
- mc_anno_housenbr – Property house number annotation
- mc_anno_indexno – Parcel index number annotation
- mc_anno_lotno – parcel lot number annotation
- mc_anno_misc - Apartment names, park names
- mc_anno_oldlotno – Old lot lines annotation
- mc_anno_ordinance – Vacated street ordinance
- mc_anno_parcel_dim – Parcel dimensions annotation
- mc_anno_replat – Recorded plat name/number annotation
- mc_anno_street_row_dimension – Street right of way dimension annotation
- mc_anno_streetname – Street name annotation
- mc_anno_surveyrec – Survey information annotation
- mc_anno_taxpin – Parcel number annotation

GEO_DB_CAMA.exe -- Use with ESRI ArcGIS Version 9.3 or higher software.

DataBase Name – cama_data.gdb

- cama – Parcel information

All “exe” files are self extracting zip files.
